

SILO V2[®] R01 威皓净 

料仓通风口收尘机
Silo Venting Filters

振动清洗系统 / Vibrating Cleaning System

筒仓灌装 / Silo Filling

粉尘从脏空气中被抽离出来的同时，干净的空气通过收尘机进入大气

Dust is separated from the dirty air flow while clean air is evacuated from the filter

过滤器的清洗 / Filter Cleaning

被过滤的粉尘通过对滤芯的振动掉入料仓

Dust drops down into the silo due to vibrating filter elements

用户友好维护

- 维护高度=1150 mm (3,8 英尺)
- 无需滤芯维护工具

可靠性和标准化S

- 粉尘喷射 < 20 mg/Nm³
- 噪音等级 < 75 dB(A)
- 安全连接法兰
- 高除尘效率

User-Friendly Maintenance

- Maintenance height = 1,150mm (3,8 ft)
- No tools for cartridge maintenance needed

SECURE and CONFORM TO STANDARDS

- Dust emission < 20 mg/Nm³
- Noise level < 75 dB(A)
- Safe connection flange
- High filtration efficiency

Feature – 特性	Function – 功能	Benefits – 优点
Standard Stainless Steel Body 标准不锈钢外壳	Resistance to Corrosion 防恶劣气候表面处理	Reduced Maintenance Costs Due to Increased Durability 增强耐用性减少维护成本
High Quality Filter Media 高效滤芯	High Filtration Efficiency 高滤尘效率	Lower Dust Emission 低粉尘外泄
Push-Fit Filter Elements 推入式安装的滤芯	No tools for cartridge maintenance needed (no loss of hardware) 快捷安全的维护（无硬件损失）	Lower Maintenance Costs 较低的维护成本
Maintenance Height = 1,150mm (3.8 ft) 维护高度=1150mm（3.8英尺）	Easy Maintenance 维护方便	Increased Work Safety - Reduced Maintenance Costs 增加工作安全性-降低维护成本
Easy opening system with hinged cover 易开式系统带有铰链盖	Easy Maintenance 维护方便	Reduced Maintenance Costs 增加工作安全性-降低维护成本

外观尺寸 / Overall Dimensions
